COMMERCIAL.

SATURDAY, February 16, 1884.

The excitement caused by the recent election, to which particular reference was made last week, has somewhat subsided, being only a nine days' wonder for the time being. The final struggle for the supremacy of power will come after the opening of the Legislature, in the latter part of next April.

The reported rainfall at the Coast, and the consequent beneficial influence on crops and freights, has tended to make masters of foreign vessels feel jubilant, and they will go eastward, in anticipation of coming in for a share of the good freights for Europe.

The general business of the city has not been of a lively nature during the current month, but it has appearances of improvement, and an increase in the island demand for all goods is anticipated.

The steamship Mariposa sailed yesterday for San Francisco with 1,900 tons cargo, of which 1,800 tons consisted of sugar and rice; total value, \$20,000. The Pacific Mail steamship Australia is due on Sunday from the Colonies, en route for San Francisco, and there awaits for shipment by her a large amount of sugar.

The receipts of sugar from the other Islands continue to be large, amounting to 20,000 bags during the current week.

The only arrival during the week was the Hawaiian schooner Jennie Walker from Faunning's Island.

The departures comprise the whaling bark Argo, for a cruise, the barkentine Kitsap for Port Townsend, the bark Kalakaua and steamship Mariposa for San Francisco, bark Spartan for Hongkong, bark Belle Isle for Humboldt Bay, and ship Aberystwith Castle for Portland, Or.

The widening of what will shortly become one of our principal thoroughfares, viz.: Merchant street, has been finally decided upon, and tenants and owners of property have been duly notified of the proposed improvement.

New stock continues to arrive by every vessel from the Coast, and at the forthcoming show of the Royal Agricultural Society, there will no doubt be the best gathering of animals ever seen in this Kingdom.
